

Three lines changed to two lines A1

change content

date 2024/02/21

Technical requirements: 1. The dimensions with "A" in the picture are important inspection items; 2. The marked dimensional tolerances are all positive tolerances; Δ3. Specifications: Haianrong EFC-05D24D 5020 24V double ball bearing 10000r/min 5.7~10.7 CFM 48.4~59.8dB; 4. There is no dirt or damage on the connector surface, and there should be no broken copper wires inside the connector; Δ5. The connector can withstand 10000V without burning; 6. The wires are not damaged, and the terminals are not deformed or rusted; 7. The wire must comply with UL certification; 8. Comply with the company's solder test standards, no solder at 200°C/5s; 9. Comply with RoHS (for European market also meets REACH requirements); 10. Comply with the "Administrative Measures for the Restriction of the Use of Hazardous Substances in Electrical and Electronic Products".
