

A1 version material
code 200402008614

Technical requirements: 1. All materials use 100% new materials. 2. All materials must be sample confirmed before production; 3. The appearance is frosted, and the texture refers to the sample; 4. The product cannot be deformed, and no strains, shrinkage or air marks are allowed. and other surface defects; 5. The surface of the parts is clean and free of oil, chips, dust, etc.6. The surface is protected from scratches, bumps, bruises, deformation and other defects.

7. Comply with the latest RoHS regulatory requirements; 8. No dimensions are noted, please refer to the 3D drawing; 9. Material color: black

		Linear tolerances are implemented according to GB/T1184 in level, geometric tolerances are implemented according to GB/T1184-K level.						design	Kiao Zepeng	2024/3/20	Jie Xinhua Technology Co., Ltd.				Drawing number	ABS+PC
		Limit deviation values for linear basic size segments						review							model material	SV05P
		Unspecified tolerance values for straightness and flatness						approve			stage mark	quantity	weight	Proportion	JXHSV05P-07213-d Teflon pipe support frame
